

Refresh, revamp, renew!

Add colourful accents with soft furnishings and accessories to make a stunning and speedy change

A touch of spice

Add warmth with hot colours. Patterned cushions transform the sofa and a modern orange armchair brings wow factor. A bold rug turns up the heat on the plain carpet and a curtain trim is an easy and inexpensive update. Orange blossoms are the perfect finishing touch.

Introduce citrus shades

A splash of zesty lemon brings a grey-based neutral scheme to life instantly. Choose bedlinen that features bold colour and pattern to make your bed the main focal point of the room. Complete the look with acid yellow accessories such as a lampshade, vases and cushions.

All change

Invest in a good quality, plain, neutral sofa and you can revitalize your look easily with colourful cushions.
