# Woodland LEAVES

A look that's now and forever! Linear, graphic foliage textile designs inspired by the tree canopy fall gently into our homes. Skeletal sketches and screen-print-like finishes in neutral tones create a modern country feel for those who like things pale and interesting.

Make them into Roman blinds and simple cushions, and team with warm natural woods and pewter touches for that all-is-calm feel.

## COUNTRY COLOUR PALETTE

- Subdued end-of-season browns
- Mellow greys
- Charcoal black

- Teak indoor-outdoor seating provides sturdy, family-friendly furniture for every season.
- Choose a leggy style for the extra storage space underneath.»

*Style tip*

Mix leaf patterns together effortlessly by using designs of different sizes from the same faded gray-brown palette.
