

Gypsy florals

Vibrant bohemian prints bring punch and panache to rooms this spring. Naive flower motifs and painterly designs inspired by idyllic Romany caravans reflect catwalk looks and create feisty backdrops. Combine a stunning hero wallpaper with pieces of painted furniture, such as a desk and chair, and decorative flower-patterned accessories to deliver a fresh, funky country look.

Country COLOUR PALETTE

Choose gorous spring-border shades, such as tulip-bright reds, oranges and yellows, with stem green and sky blue, picking fabrics and wallpapers with cool, pale backgrounds so designs stand out.

SEASONAL LOOKS

WHERE TO USE IT
Home offices and creative spaces are energised by new florals in zippy colours, and anchored by painted pieces in shades lifted from the patterns. See page 76 for details.
